

FIG. 1 is a perspective view of a device 10, which includes a handle 12 and a base 14. The handle 12 is connected to the base 14. The base 14 is a rectangular block with a central opening. The handle 12 is a long, thin rod that passes through the opening in the base 14. The handle 12 has a series of longitudinal grooves or ridges along its length. The device 10 is shown in a perspective view, with the handle 12 extending upwards and to the left, and the base 14 positioned at the bottom right.
